

FSL ALCOHOL USE BEHAVIORS AMONG THOSE WHO DRINK

Breakdown of IFC/NPC Respondents

Among FSL students at this college, the top 3 past year consequences of alcohol experienced in the past year are “vomit” (71%), “black out”(48%), and “miss class” (44%). Above is a break down by sex.

Among all students’ the top 3 past year consequences of alcohol are “hangover”(37%), “vomit” (29%) and “black out/memory loss” (17%)(PIP, 2022).

SOCIAL NORMING BEHAVIORS-WHAT IS A PERCEIVED BEHAVIOR VS WHAT IS THE REALITY

Less than half (42%) of IFC members are concerned about a member to continue to drink after intoxicated. For both IFC and NPC the numbers need to be evaluated due to the frequency of consequences associated with alcohol poisoning.
